## Objective

First-year Software Engineering student at Turin Polytechnic University in Tashkent, seeking a Junior Frontend Developer role to contribute React/Next.js expertise to real-world projects and grow in a fast-paced, collaborative team.

---

## Education

### Turin Polytechnic University in Tashkent

Bachelor of Science in Software Engineering (2025 – Present)

Expected Graduation: 2029

Relevant Coursework: Introduction to Programming, Data Structures & Algorithms, Object-Oriented Design, Web Technologies

---

## Technical Skills

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks:	React, Next.js, Redux
Tools:	Git, npm, VSCode, Chrome DevTools
Testing:	Jest (basic)

---

## Projects

### AI Food App (Team Project – CAU Hackathon Winner)

- Led frontend development with React Native, integrating AI image recognition to identify dishes.
- Designed intuitive UI components to display ingredients and calorie data in real time.
- Collaborated with 4 teammates to deliver a prototype within 48 hours.

### Svetaforuz (Independent Project – E-commerce & POS Platform)

- Built an all-in-one platform using Next.js for server-side rendering and routing.
  - Implemented Redux for state management and developed custom dashboards.
  - Developed a responsive storefront enabling seamless purchasing workflows.
  - GitHub: [github.com/humoyun-dev/svetaforuz](https://github.com/humoyun-dev/svetaforuz)
- 

## Soft Skills

• Team Collaboration • Analytical Thinking & Problem-Solving • Adaptability & Quick Learning

---

## Additional Information

- Passionate about Progressive Web Apps and performance optimization.
- Active member of local developer meetups.
- Open to internship or part-time roles (remote or on-site).
